

## **COMMUNICATIONS COMMITTEE SEEKS INPUT**

The newly formed Strategic Planning Communications Committee has begun its work for improving communication in the school communities served by SAU 16. The committee, comprised of parents, residents, and school faculty members includes Jim Fellows, JR Jones, Helen Joyce, Daryl McKinnon, Ed Oddo, Geoff Simard, and Karen Simas.

They are actively seeking input from parents, students, faculty and community members relative to internal and external communications methods they have found most effective, suggestions for improvements and what form of communication works best for them, such as email, phone, newspaper, television, radio, and papers that students bring home, etc.

The Communications Committee is also seeking additional members from the communities serviced by SAU 16. You may e-mail the committee members at [communications@sau16.org](mailto:communications@sau16.org).
